

10 Oct 1989

Dear Nell -

Please excuse the "writing tablet" I am using to write to you.

My son Bill and I have been digesting some of the ~~new~~ material I have collected and are ~~developing~~ developing a computer program to file all the information on the Sheehan and Boston clans.

Enclosed are computer copies of the family origin and the description of the family crest. Also, you will find blow ups of the small Sheehan crest that I showed to you. I told Alice that I would send these copies of the crests together with the coloring scheme as she wanted to embroider a family crest.

Ingrid and I really enjoyed the visit with you and Alice - too bad it couldn't have been longer. Next time we will have more time.

Thanks very much for your delightful hospitality, also for the valuable information on the Emmett Sheehan side of the house.

Again, thank you for the lovely visit. Please pass my fondest regards to Alice.

With love

Dick & Ingrid.
